PROFILE

I have a strong understanding of web technologies and a proven track record of delivering high-quality, visually appealing, and user-friendly web applications. I am able to work effectively both independently and in a team environment. With my expertise and experience, I am confident that I can make a positive impact for any organization seeking to build and maintain high-quality web applications.

EXPERIENCE

TECHNICAL LEAD

PharmEasy | NOV 20 - Current

- Developed a solution for common component sharing by hosting them in a monorepo and publishing on GitHub Packages registry for easy installation via npm.
- Implemented a multi-repository architecture to improve build size, manageability, and flexibility.

SENIOR SOFTWARE ENGINEER

Valuefy Solutions | AUG 18 - OCT 20

- Improved the performance of an application by modularizing and lazy loading, reducing build time by 50%.
- Led the front-end team, mentored junior developers, and helped improve their skills and knowledge.
- Created a reusable Data Table component with features such as server-side API support, sorting, filtering, pagination, column toggle, and more.

SOFTWARE ENGINEER

Retailio | MAY 17 - JULY 18

- Developed a React and Redux-based front end for GST software, used for managing an organization's GST tax filing.
- Implemented reusable components using Angular and React, ensuring optimal performance of applications.

SENIOR WEB DEVELOPER

Skarma | APR 16 - MAY 17

- Created 'Prsntly', an in-house project management tool, reducing the workload of the digital marketing team by automating the social content publishing and approval system.
- Developed web services and integrated them with front-end applications, and also integrated third-party services such as Trello, Asana, Slack, Google Maps, etc.

WEB DEVELOPER

Ajackus | APR 14 - APR 16

- Developed and maintained code for in-house and client websites primarily using HTML, CSS, Sass, JavaScript, and jQuery.
- Manually tested sites in various browsers and mobile devices to ensure cross-browser compatibility and responsiveness
- Built 'Visa Guide' from scratch using the Ember.js and Laravel framework, providing all visa-related products and services on a single platform.
- Created the first version of the Ember Froala Editor with a colleague.
